Message from the Guest Editors

Dear Colleagues,

This year, AMS13 will be hosted by the Membrane Society in Singapore (MEMSIS) at Nanyang Technological University (NTU), Singapore, from 4th to 6th July 2022, and it will be supported by the Singapore Membrane Technology Centre (SMTC) and the Membrane Science and Technology Consortium (MSTC) in conjunction with other industrial partners.

AMS13 is one of the most important conferences in the field, bringing together members from different membrane societies and industries in a forum where the exchange of ideas and professional networking can take place. This Special Issue will draw together exciting papers presented during the conference. On behalf of the organizing committee, we welcome all fellow membrane scientists to join us in NTU for this three-day event and cordially invite you to contribute your original research papers or reviews to this Special Issue.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

Membranes is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Ei Compendex](#), [PubMed](#), [PMC](#), [CAPlus / SciFinder](#), [Inspec](#), and many other databases.

Journal Rank: [JCR - Q1 \(Polymer Science\)](#) / [CiteScore - Q2 \(Chemical Engineering \(miscellaneous\)\)](#)
